"BETTER TIMES ROSE"

Copyright 1934 by J. Horace McFarland Company.
The brilliant cerise flowers are large, double, and
delicately fragrant. Being produced on long strong
stems, they are excellent for cutting; foliage is
leathery, dark green, a very free full bloomer. Its
success is indication of the name.

PRICE \$1.50 each

This Catalog is our Salesman

THROUGH this catalog, we sell direct to you, the Planter. This saves you the commission usually paid to agents, also insures you that you will get freshly dug stock direct from the grower.

Our experience of nearly half a century in growing trees and plants is our best advertisement. Nursery stock is an investment that improves in value and appearance with age.

Buy direct from the grower and take no chances on stock that has stood in heated buildings and handled by people who know nothing about the growing or care of trees and plants.

Invest your money in freshly dug Nursery stock, that is packed the same day it is shipped. If your results are satisfactory, your re-orders are assured. Depend on us to give you quality stock and service that will warrant your future business.

CASH DISCOUNTS FOR EARLY ORDERS

{ 10% discount on cash orders received within ten days after receipt of this catalog. 5% discount on cash orders received before Mar. 15th. }

*Orders shipped C.O.D., if one-fourth cash accompanies order—no discount on C.O.D. orders.
Discount must be taken when order is placed.*

TERMS. Cash with order is required to make possible the low prices in this book. Orders will be sent C.O.D. if one-fourth cash is sent with order. Reserve orders must be accompanied by at least 25%, to insure us in reserving goods.

INSURANCE. For Purchasers who wish their stock insured against Natural Causes for one year, we will upon payment of full purchase price plus 25% of same, insure such purchases. Any loss, thus claimed, should be reported to us at once.

SIZE OF ORDERS. Due to the fact that it costs as much in clerical work, materials and labor to fill a dollar order as it does a five-dollar order, we find it unprofitable to fill orders under \$2.00 without an additional charge of 25c.

PARCEL POST. Small trees and shrubs may often be sent by mail at less cost than by express. However as size, weight of trees and distance traveled vary, we have found sending such shipments C.O.D. for postage the most satisfactory way, unless ample postage is sent with order, in which case, balance, if any will be returned.

GUARANTEE. We guarantee our stock to be true to name, of quality represented and to reach you in good condition. If stock arrives otherwise, report promptly to us and to carrier.

SUBSTITUTION. In case we are out of a variety or size called for, we reserve the right to substitute another similar variety of equal merit, or another size or grade of an equal value, unless the words "NO SUBSTITUTING" are written on the order, in which case we will fill the order as far as we can and return the balance of the money.

ORDER WITH CONFIDENCE. Our nurseries are periodically inspected by official N. Y. State Inspectors and all stock is certified before it leaves our plant. A copy of our certificate of inspection by the Department of Agriculture accompanies each shipment.

GOOD NEWS. Express rates on all kinds of nursery stock have been reduced 25% or more.

ONE PRICE FOR ALL. In view of the fact that business comes from a wide range of territory and all buy from the same price list, it naturally follows that if transportation charges were prepaid on all orders, that those in distant states would be getting a price concession, in that their orders would net less than those in New York and nearby states. Therefore in fairness to all, shipments are sent collect.

SHIPPING SEASON. Our especially constructed Air Controlled Storage permit us to make shipments throughout the Fall, Winter, Spring and well into Summer. Successful planting depends on stock being shipped in a dormant condition and not on time of shipment.

**A Feast of Fragrance
and Color**

On this page we are listing thirty-one standard and well-tried varieties that will appeal both to the amateur and connoisseur of Roses. All are field-grown, high grade varieties that will give you an abundance of bloom the first season. When you buy Finger Lakes roses, you reap the benefit of a lifetime experience and judgment in growing field-grown roses. They may cost a few cents more, but what a "whale of a difference."

Will bloom this year. 50c each; 12 for 5.00; (except as noted).

Autumn—A rainbow of Autumns' glorious colors. Burnt-orange splashed with red, orange and various shades of pink. \$1.00 each.

Betty Uprichard—Carmine and salmon suffused copper-pink on inside petals. Spicy fragrance.

Briarcliff—Even shades of silvery rose-pink.

Chas K. Douglas—Lustrous scarlet-crimson, slightly fragrant. A good red rose.

CORALBERRY (Indian Currant) (Symphoricarpos Vulgaris). Fine foliage, slender, gracefully bending branches with dainty pink blooms in June and July — followed by small red berries in thick clusters along the branches, which hang all winter. It will thrive in dry barren soil or dense shade. Grows 3 to 4 feet.

Caragana Arborescens

2 to 3 feet above ground

75¢ each; 3 for \$2.00

Here's a beautiful shrub that will greatly enhance your home grounds. Its compound bright green foliage and numerous clusters of bright yellow flowers are handsome in late spring. Perfectly hardy anywhere. Ultimate height 10 to 12 feet.

CORNUS ALBA SIBIRICA (Red Bark Dogwood). Its bright red bark and blue berries makes a beautiful winter effect. Creamy white flowers in May and June. A rapid grower. Ultimate height 8 feet.

CORNUS ELEGANTISSIMA (Variegated Leaf Dogwood). Valuable for its colored bark, greenish white flowers in May and June, followed by black berries in fall. Beautifully variegated foliage. Grows 5 to 8 feet. 85¢ each; 3 for \$2.35.

CRANBERRY, HIGH BUSH (Viburnum Opulus). Creamy white flower heads in May and June, followed by clusters of scarlet-red berries that are edible and hang well into winter.

DEUTZIA GRACILIS. A dwarf variety with dainty, fragrant pure white flowers in May and June. The branches, slender and graceful, grow so thick that the shrub is a compact mass remaining beautiful after the blossoms are gone. Does well in shade. Ultimate height 2 to 3 feet.

DEUTZIA LEMOINE. Semi-dwarf variety with spreading branches, light green leaves and handsome clusters of cone-shaped white flowers in June. Ultimate height 3 to 4 feet.

FORSYTHIA or GOLDEN BELL (Fortunei). Their bright golden masses of glittering yellow appear in April, before any foliage, and are welcome harbingers of spring. Ultimate height 5 to 7 feet.

GOLDEN ELDER. This golden leaved shrub is a pleasing contrast among shrubs of green foliage. Flat-topped cymes of white flowers in early summer. 6 to 8 feet.

HYDRANGEA PEE GEE (Paniculata Grandiflora). During the hot summer months this shrub is covered with great pyramidal panicles, white on opening and assuming rose and bronze tints on the sunny

side, and drooping gracefully from their own weight. Excellent for winter decoration. Grows 5 to 7 feet. 1½ to 2-foot plants.

HONEYSUCKLE, TARTARIAN. A very rapid grower. Makes a wonderful showing the first year. In May and June it is very conspicuous with a mass of thickly spangled fragrant pink flowers and lively green foliage. Ultimate height 8 to 10 feet.

HONEYSUCKLE, MORROWI. A Japanese shrub with pure white flowers changing to a yellow tone in May and June, followed by a multitude of bright red berries, which hang well until winter. Ultimate height 4 to 6 feet.

KERRIA JAPONICA. Slender, green branches and pretty, closely serrate leaves. The double flowers are deep orange-yellow and are produced in profusion throughout the summer. 1½ to 2 feet. 50¢ each; 3 for \$1.35.

PHOTINIA VILLOSA (Christmas Berry). A charming and unique ornamental, liberally set with small corymbs of white flowers in June. Later the foliage is a most gorgeous red; the bird-proof berries carry the same scarlet gleam through the winter. This should be in every landscape. Excellent for winter decoration. Grows about 8 feet. 6 to 8 feet, \$1.50 each.

SPIREA VAN HOUTTE. See page 14.

SPIREA ANTHONY WATERER. A beautiful low-growing shrub with showy crimson flowers in flat clusters. If blossoms are cut as they fade, it will bloom continuously from June until frost. An excellent border shrub for foundation plantings. Ultimate height 2 to 3 feet.

SPIREA AUREA (Golden). Green foliage, bordered with rich, golden yellow. In June covered with conspicuous white flowers. Ultimate height 5 to 7 feet.

SPIREA RICHMENSIS. Has dense spikes of rose-pink flowers that crown sparsely twigged, erect branches. For shrubbery groups, border plantings and moist places. July to September. 5 to 6 feet.

SPIREA THUNBERGI. Forms a dense, fluffy bush. Its feathery foliage is a pleasing shade of yellowish green, changing in autumn to bright red and orange. Pure white flowers in early spring. 3 to 5 feet.

SNOWBALL (Viburnum). The large, rounded balls of snow-white flowers in May and June on drooping branches make this a most attractive shrub. Grows 6 to 8 feet.

SNOWBERRY (Racemosus). Has dainty, pink flowers in June and July which in August form waxy white berries about the size of cherries. They hang nearly all winter. Will succeed in dense shade and sunlight as well. Grows 3 to 5 feet.

SUMAC. An ideal shrub for breaking monotony among other shrubs. Its large decorative greenish yellow blooms in June are followed by reddish brown fruits and brilliant red foliage, which lights up the landscape and commands attention. Deeply cut fern-like foliage. Grows to a height of 8 to 10 feet.

Finger Lakes Hardy Flowering Shrubs That Excel

Snowhill Hydrangea Special (Arborescens)

1½ to 2 ft. plants	25c each; 6 for \$1.00; 25 for \$2.50
2 to 3 ft. plants	35c each; 4 for 1.00; 25 for 4.98
3 to 4 ft. plants	50c each; 3 for 1.25; 25 for 8.00

A really marvelous shrub that blooms from July to October and always the pride of the planting. Its immense blooms resembling the Snowball (but much larger) are conspicuously white and imposing, properly named "Hills of Snow." When planted alternately with the Pee Gee, it forms a most conspicuous and decorative hedge or foundation planting. Should be well pruned in March before the shoots appear.

Great Spirea Van Houttei Special (While They Last)

1½ to 2 ft. plants	10c each; 12 for \$1.00; 100 for \$ 5.00
2 to 3 ft. plants	15c each; 10 for 1.00; 100 for 7.00
3 to 4 ft. plants	25c each; 6 for 1.00; 100 for 10.00

What an improvement in appearance and also in dollars and cents, a few Spirea will add to any property. Very soon after planting it blooms in riotous extravagance and its beautiful maidenhair foliage on slender, drooping branches is a very pleasing picture throughout the entire season. In May and June, it is covered with a perfect cascade of dainty white flowers, crowded thickly along slender branches, bending to the ground in perfect curves, greatly resembling a fountain of snow. It is so popular that we sell more of this than any other shrub we grow. Only because we grow them in such quantities can we make such a price.

Foundation Planting

A foundation planting of the "Hills of Snow" Hydrangea with the Dwarf Red Spirea (Anthony Waterer) in front is a gorgeous sight from June until frost. They are two of the finest shrubs for all-season bloom.

Finger Lakes Ornamental Vines and Hedging Flowers & Berries

Plant our fast-growing Vines for shade and beauty. Often called the frills on Mother Nature's dress, our fine thrifty Vines are a necessity for good landscaping.

Ornamental Vines

Add beauty and charm to the porch, fence, arbor and pergola and unattractive bare walls.

American Ivy (Virginia Creeper). A very fast and vigorous grower. A fine, rich green in summer, changing to vivid hues of crimson in fall. 50c each; 3 for \$1.25.

Boston Ivy (Ampelopsis Veitchi). Beautiful, three-lobed leaves, overlapping, and forms a tapestry of rare charm. The only vine that will cling to brick or cement wall. A fast grower. 50c each; 3 for \$1.25.

Evergreen Bittersweet (Euonymus radicans). Handsome, glossy foliage. Its clusters of orange-yellow capsules cling to the vine throughout the winter months, and make a charming house decoration. 50c each; 3 for \$1.25.

POLYGONUM AUBERTI The Delightful Silver Lace Vine 75c each; 3 for \$2.00

This new creation is a very rapid climber, averaging 20 feet in a season. Will clamber gracefully up a trellis, over a tree trunk, a wall, a porch, an arch, or upon any support which necessity or fancy may devise. A well grown specimen is a cloud of lacy, misty white, shot with tints of cream and pale rose of most exquisite effect. Blooms all summer.

Clematis Jackmani. Large, velvety purple flowers. \$1.00 each; 3 for \$2.50.

Clematis, Mme. E. Andre. Medium flowers of a striking dark red color. \$1.00 each; 3 for \$2.50.

Clematis Paniculata. In August this becomes a mass of dainty white, starlike flowers with an alluring and penetrating fragrance. 50c each; 3 for \$1.35.

Dutchman's Pipe (Birthwort). Has large, heart-shaped leaves, with peculiar brownish flowers that resemble a miniature pipe. 75c each; 3 for \$2.00.

Honeysuckle, Hall's Japan. From June till September this vine is covered with handsome blossoms which open and turn to a striking yellow. Deliciously fragrant. 25c each; 5 for \$1.00.

Wisteria. Purple grafted to insure early bloom—the only kind that can be depended on to bloom. Has long, pendulous clusters of pea-shaped flowers. Blooms in May and June. 50c each; 3 for \$1.35.

Wisteria White. Very unusual. These too are the grafted variety. 75c each; 3 for \$2.00.

OLD-FASHIONED BLUEBERRIES

Nursery Grown Plants—They Bear the First or Second Season.

PRICE, \$1.00 each; 3 for \$2.75; 10 for \$6.00

Easy to Grow — Hardy Anywhere

Blueberry pie, blueberries in cream, blueberry preserves. The thought of these makes the mouth water and yet they are within your reach in an ever-increasing quantity. The Blueberry is in a class by itself with its delicious melting flesh, full of creamy juice and a delicate wild tang all its own.

In autumn the foliage of the Blueberry is more brilliant than any other shrub

and their red twigs brighten up the Winter landscape.

Each plant has been transplanted in the nursery, insuring good root system and will be dug with a ball of earth attached to roots.

Plant Blueberries where there is good sunlight, about 4 feet apart. No pruning is necessary. Water well the first year for best results.
